

County Councillor Martyn Holland's Monthly Report – June 2021

S Bend in Maeshafn

I am pleased to confirm that the County have at last installed chevrons on the Aberduna Quarry bends. It just goes to prove that sadly accident statistics always help.

Flooding Maeshafn Road

After the recent heavy rains Ffordd Maeshafn was once again flooded near the property known as Silver Wood. I can confirm that the planned works to resolve the problem are still on the Counties priority list for this year.

Speeding on A494

I have received a number of complaints about not only the speed of traffic on the A494 through Llanferres but also the noise from motorbikes. I will raise this with the police but I would encourage anyone who has concerns about the speed of vehicles or noise on the A494 to report each case on the Go Safe website.

Blocked Drain Maes Ysgawen

I received a concern about a blocked drain in the Park and the chair has arranged for Hugo to check it on a regular basis as part of his contract.

Forestry Road Improvements

The County will be writing to all residents on Forestry Road as part of the consultation process linked to the improvements to the Moel Famau and Loggerheads country parks.

Potholes in Rectory Lane

After visiting Rectory Lane I reported the large number of potholes and I asked the County to repair them. Once again the Counties response was that because it is an unadopted road they could not undertake any work on the lane.

The only alternative is to explore with the residents either clubbing together to fill the potholes or coming together to start the adoption process which will be costly.

Community Update 26

I have just issued my latest Community Update number 26 which covers issues across the ward.
